Hello.

For the LaSalle officers, will they be using their own cruisers, riding with a WPS officer as a passenger, or using one of our cruisers? They are unique since their service uses our CAD but having them work in Windsor is limiting. Sean McFadden and I just had a conversation about how we will work it in the back end but it depends on the answer to the questions above.

Do you know what time Kirincic will be working today?

Subject: FW: Assistance - CKPS Officers - Radio & CAD procedures

Good evening,

Lasalle Police Service has assigned one officer coming to assist the next few nights with the convoy.
Tuesday February 8, 2022 will be PC Steve Kirincic [REDACTED]
Wednesday February 9 and Thursday February 10, 2022 it will be PC Oliver Jibrail [REDACTED]
We will have CKPS officers in town tomorrow
Is there anything else you require?
Sorry for late notice, just getting this worked now.

Jen

Inspector,

From a dispatch operations perspective, it would be appreciated if CKPS could provide the following in advance:

1. Officer name – surname and G1
2. Agency (if more than one service assists)
3. Alternate direct contact number/cellphone for officer

I will have to create temporary unit numbers for each officer and the information will be required in advance. If it is at all possible

WIN00002005

to provide the information prior to the officers arriving, it would be appreciated. This will allow dispatch to manage the units more effectively and will allow yourself or any member of the SLT to review who worked and when, similar to International Fireworks. The officers will use the call sign they are provided for the duration and each shift they work for this event. Additionally, they will need to complete a radio test at the beginning of each shift with us. IF the cell numbers they provide are their personal numbers, we will not enter them into the system for privacy but instead keep an internal list for dispatch reference, if that is acceptable to all. They will only be used to contact an officer if they are not responding to their radios when called.

I will defer to Sgt Diotte for the portable distribution but can assist as needed.

I have included Director Smith on my response for her awareness, as our discussion this morning was still hypothetical.

Hello all,

Just working with DC Earley at CKPS to get you numbers. It is anticipated that 10 officers will be deployed to Windsor for 1500-0300 hrs starting tomorrow. They will be staging at the Tilston Center to be deployed from there. Please let me know what you require to get these officers up and running for tomorrow afternoon.

Tracy/Shawn,
As per our discussion this morning...once we know they are coming, these officers will need WPS portable radios. Please work with Insp. Crosby to outline recommended process to get them comms (portables) from Crib and that we have necessary info to be able to log them onto our CAD system so they show up on Status Screen as a resource. Thanks,

Hi Kirk,

10 officers and a few cars (if you have them) will work. I think we could spell some of them off in our vehicles. They will be briefed on the mission, but I have attached the most recent ops plan for your reference and discreet dissemination.

We are likely in a protracted scenario and would like to at least plan for the next 14 days. They will get direction from the supervisors at the traffic points near or at the scene. It has been mostly non-confrontational with a couple of contentious moments following interactions between protestors and our members as we evicted them from some adjacent properties. Interestingly, the majority of the protestors to this point have not really been from any anti-police pedigree. It is somewhat cordial.

That said, we have choked off the small volume of protestors at the Ambassador Bridge (100-150 in number) and due to our intersection control, many of the protestors who planned to attend did not make it and may be populated among the large traffic procession nearby.

As always, we appreciate the support your team gives us without hesitation. Thank-you.

Jay

Hi Jason,

We just received a request from Chief Mizuno for officers to assist with traffic points 3am-3pm. Can you or Superintendent Crowley send me logistics; # of officers needed, vehicles required, communication and any estimate on duration we will need to assist, two weeks/three weeks (best guess).

WIN00002005

I think we will get volunteers for the overtime to assist, but vehicles may be an issue. I will have a couple vehicles available to get officers to Windsor but we may need WPS cars for the traffic points. Also, I assume you guys have direction for each officer on expectations/mission statement etc. I don't want any of our members going off script and causing a problem.

Let me know and we will see what we can do.

Thanks,
Kirk
